

I am outraged that Chairman Powell thinks it is acceptable to keep the proposed rule changes secret. His choice to use whatever fascist loophole makes this legal for his and his father's (and their posse of corporate thugs) benefit is sickening. The very fact that he will not reveal the specifics to the public, or even to his fellow Chairmen, is proof to Americans that the rule changes are not in our best interest. Chairman Powell is spitting on every concept of freedom we Americans hold dear, and in the faces of the men and women who fought in the interest of freedom (or so we are told) abroad. Here at home those very freedoms are being stolen away, by the son of one of the very men who sent them into battle in the first place. What a heinous crime is being committed, right under our noses and with no recourse. Who's the real danger to America? Chairman Powell.
